"Dear Graham and the Team at Pennine IT,

I wanted to take this opportunity to say a big "thank you" for the truly outstanding work that you have delivered on the Witness Statement Generator.

This WSG will enable my team and I to take on our largest competitor, aggressively, with supreme confidence knowing that we can secure the projected business and deliver it.

For someone who knows very little about IT and computers, I found your advice to be excellent and it helped to guide me through the entire project smoothly. Even my late requests for amendments did neither faze you nor prevent you from bringing the project in on budget.

I would definitely recommend you to any business serious about surviving and prospering in this current uncertain climate.

Once again, thank you for all your help. I am really looking forward to working together again soon in starting phase 2 of the project.

Yours sincerely,

Barry Simpson LL.B. (Hons.), Barrister
